DANIEL CHOCOLATES

100% CERTIFIED ADDED COCOA

ALL NATURAL INGREDIENTS

MORE COCOA LESS SUGAR

SUSTAINABILITY

ALL NATURAL INGREDIENTS

Our chocolates are all natural and completely free of preservatives, artificial colourings and flavours as well as hydrogenated and tropical fats. We only use real fruits, real cream, and actual herbs and spices. We make all our chocolates exclusively in the Mount Pleasant neighbourhood of Vancouver, from which we supply our retail stores, clients, and a large number of fine retailers and hotels across Canada.

MORE COCOA LESS SUGAR

We have been established in Vancouver for more than 40 years and have always set high standards for upscale chocolates. We have drastically reduced the sugar content in our chocolates by adding 100% pure cocoa mass. Our milk chocolate contains 44% cocoa and our dark chocolate is 66%, 74%, and 85%.

SUSTAINABILITY

Daniel Chocolates takes sustainability seriously. We attempt to source the most sustainable products available on the market and work with local suppliers who share the same values. Our recyclable packaging materials (cardboard boxes and plastic trays) are all made locally and our packaging is printed locally by a F.S.C (Forestry Stewardship Council) certified company. In addition, we also partner with One Tree Planted, joining the reforestation efforts in British Columbia.
